I keep reading everywhere people positioning Friendfeed as a Twitter competitor. For me it really is not. It has almost totally replaced Google Reader for me. - Meryn Stol

But it is a Reader competitor. FriendFeed "could" show full post entries... It's based on RSS after all. I can even imagine FF with a "two-pane" layout, just like lots of people have configured Outlook. One pane for the "stream" and conversations, the other for viewing an article. - Meryn Stol
